**11-2101 PROJECT UPDATE
NOISE BYLAW EXTENSION
SANITARY SEWER CONSTRUCTION FROM
MAYFIELD ROAD TO 1.5km NORTH**

The Region of Peel is constructing a 600mm diameter sanitary sewer in a tunnel along Dixie Road from Merchant Street (north of Mayfield Road) to 1.0km north.

This work is to provide sanitary sewer (wastewater) services to support development and growth. Wastewater comes from flushing toilets, having a shower or washing dishes. Sanitary sewer pipes take wastewater from homes or businesses to a treatment plant.

NOISE BYLAW EXEMPTION

An extension to the noise bylaw exemption to extend the normal working hours and permit work between the hours of 11:00 pm and 6:00 am at the construction compounds located along Dixie Road from Mayfield Road to 1.5km north, has been granted by the Town of Caledon. The permit was extended from December 2018 to March 2019 due to unforeseen equipment delays and inclement weather.

This exemption will allow for a two-shift operation to reduce the length of construction, which is expected to begin Monday, February 4, 2019 and last till March 2019.

Construction noise will be minimized as much as possible with sources being crane, generators, light towers and separation plant. Equipment will utilize sound attenuating devices. Deliveries to the site will be made during daylight hours only.

PROJECT UPDATES

The Region of Peel is committed to keeping you informed and ensuring that the work is carried out with minimum disruption. If there are substantial changes in the project scope or schedule, we will provide you with further updates.

CONTACT

The Region encourages you to notify us if you have special requirements, or if you have any comments or issues.
