

# Water and Wastewater

Providing clean water for life

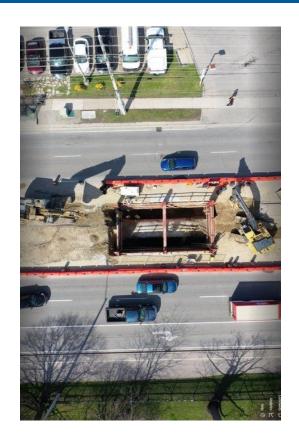

### **Core Service**

To deliver a world-class
 Water and Wastewater
 service network while
 respecting the environment
 and employing resource
 recovery principles

# Interesting facts about this service

\$40.3 Billion

Asset value Incl. 4,789 km water main and 3,754 km sewer mains 566 ML

Average water produced per day with 343,151 water accounts and 336,770 wastewater accounts

25,232

Hydrants inspected every year

280 km

Sewer main inspected every year

### **Achievements**

Ministry of the Environment, Conservation and Parks inspections of our 7 Drinking Water Systems, with most recent complete inspection report rating of 100%

\$35 million in funding was secured for the G.E. Booth Water Resource Recovery Facility through the Housing-Enabling Water System und from the Province of Ontario

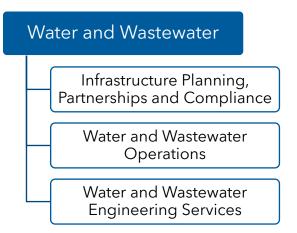

Achieved compliance with the first and second phases of the excess soil regulations, ensuring the proper management of excess soil

Continued partnership with the Lakeview Partners for the installation of **District Energy** systems for Environmental Sustainability using wastewater effluent

# Service delivery model

How do we do it

- Delivering value
- Embracing innovation
- Investing in people
- Respecting the environment

### Service levels and trends

## 10-year Capital Plan

Alignment with growth & lifecycle asset management practices

## **Environmental Focus**

Increasing energy recovery from treatment processes

# **Regulatory Compliance**

Developing new strategies to address impacts of climate change ex. Algae blooms

### Public Engagement

Increasing access to construction information and impacts

# **Business plan outlook**

### Planning for the future

- Resource planning and modeling to meet future demands and growth
- Align the capital program with Peel's new Official Plan and municipal growth targets
- Focus on innovation, new technology, best practices and partnerships

- Continued maturity in long term Asset Management Plans
- Develop a Maintenance Master Plan
- Employ a climate change lens on new capital and rehabilitation projects

### Performance measures and results

Production of an average of 566 million litres of safe drinking water and treatment of 684 million litres of wastewater every day.

Continued lowest water and wastewater rates in the Greater Toronto Area, 34% lower than the GTA average.

Maintaining infrastructure in a rating of "good" condition or better.

Inspection of 25,232 hydrants and over 280 km of sewer mains every year.

# Proposed operating budget

| 2024 Net Base Budget (In \$Millions)                                   | \$527.3 |
|--|---------|
| Cost to maintain 2024 service level                                    |         |
| <ul> <li>Inflation: Labour costs/Goods and services</li> </ul>         | \$5.8   |
| <ul> <li>Allocation of growth in corporate sustaining costs</li> </ul> | 0.8     |
| <ul> <li>OCWA contractual cost increase</li> </ul>                     | 4.4     |
| Electricity cost increase  | 0.6     |
| Sub-total: Cost to maintain 2024 service level                         | \$11.6  |
| 2025 Service demand  |         |
| <ul> <li>Reserve contribution - 5.0% levy</li> </ul>                   | 25.5    |
| <ul> <li>New FTE requests (net of capital recovery)</li> </ul>         | 2.7     |
| 2025 Proposed Net Budget Change from 2024                              | \$39.9  |
| Proposed Total 2025 Net Budget   | \$567.2 |

Note: may not add up due to rounding

# **Mitigating Funding Gap**

**NEW**in 2025

Infrastructure Levy

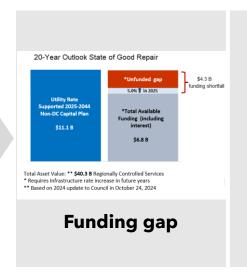

#### **Service Pressure**

Aging infrastructure and the addition of new assets.

#### **Investment**

+\$25.5M

**Operating** 

#### **Service Outcome**

Peel's infrastructure is maintained in a state of good repair.

### **2025 Budget Request #64, 67, 71**

### Infrastructure & Business Sustainment

#### **Service Pressure**

To support Asset
Management
Maturity,
emergency
preparedness,
compliance,
business continuity
and regulatory
changes.

#### **Investment**

8 permanent staff to address demand

+\$0.6M
Operating

#### **Service Outcome**

Enable Peel to comply with regulation O.Reg 588/17 and meet SOGR needs.

Maintain compliance and enable emergency preparedness.

# 2025 Budget Request #69

### Business Performance & Asset Assumption

#### **Service Pressure**

To support growth of the system and bylaw enforcement related to system growth and complexity.

#### Investment

21 permanent staff and 3 contract staff to address the demand

+\$2.1M Operating

#### **Service Outcome**

Safe, reliable and high quality drinking water.

Remove wastewater in a safe and environmentally responsible manner.

# 2025 Budget Request #65,72

### Data Solutions and Technology

#### **Service Pressure**

To support key IT initiatives to support system growth and infrastructure program, data and automation.

#### **Investment**

2 permanent staff to address the demand

+\$5.5M Capital +\$0M Operating

#### **Service Outcome**

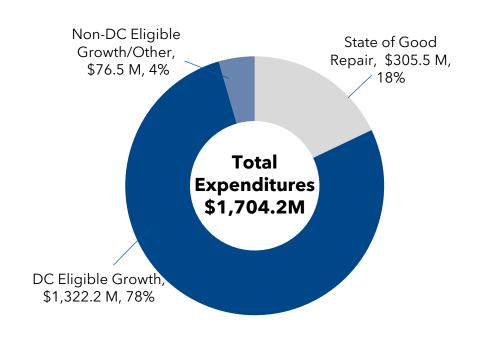

Ability to continue to develop EAM project and develop capital budget and control tool to manage W&WW assets and infrastructure.

Execute current and future data analytics requirements.

## 2025 1-Year Capital Budget \$1,704.2 million

#### **Key highlights**

- \$615.3M for wastewater collection main replacement and construction
- \$558.1M for water main replacement and construction
- \$169.2M for expansion of Water Resource Recovery Facilities
- \$90.3M for the condition assessment & rehabilitation program
- \$77.6M for sanitary sewer installations.
- \$43.4M for pumping station expansion, rehabilitation and water treatment plant equipment replacement.

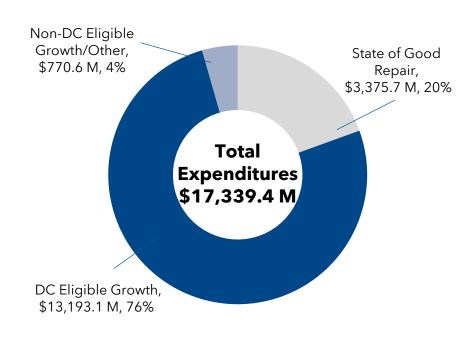

| Capital       | Development     | External |  |
|---------------|-----------------|----------|--|
| Reserves      | Charges (DC)    | Funding  |  |
| \$416.5M; 24% | \$1,286.4M; 75% |          |  |

## 2025 10-Year Capital Plan \$17,339.4 million

#### **Key highlights**

- \$5,271.7M for wastewater collection main construction and replacement
- \$5,002.1M for water main construction and replacement
- \$2,562.1M for water treatment plant and pumping station expansion & rehabilitation
- \$1,926.7M for expansion of Water Resource Recovery Facilities
- \$876.0M for condition assessment & rehabilitation

| Capital Reserves | Development<br>Charges (DC) | External<br>Funding |  |
|------------------|-----------------------------|---------------------|--|
| \$4,140.3M; 24%  | \$13,193.1M; 76%            | \$5.9M; 0%          |  |

## **Summary of Key Financial Information**

|   | Resources to Achieve Level of Service |            |
|---|---------------------------------------|------------|
|   | 2024                                  | 2025       |
| Net Expenditures (\$M)                      | \$572.1                               | \$611.9    |
| Revenues excl. Peel Required Billings (\$M) | \$44.7                                | \$44.7     |
| Peel Required Billings (\$M)                | \$527.3                               | \$567.2    |
| Full-time Staffing Resources                | 660.7                                 | 691.7      |
| Capital Investment (\$M)                    |                                       | \$1,704.2  |
| 10-Year Capital Investment (\$M)            |                                       | \$17,339.4 |

| <b>Outlook Years</b>          | 2025   | 2026*  | 2027*  | 2028*  |
|-------------------------------|--------|--------|--------|--------|
| Net Billing Increase<br>(\$M) | \$39.9 | \$44.1 | \$45.0 | \$46.0 |
| Utility Rate % Increase       | 5.9%   | 7.7%   | 6.7%   | 6.5%   |

<sup>\*</sup>Includes the 6% infrastructure levy, but will be reassessed based on the recommendations from the Utility Long Term Financial Plan
