Network Outage

We are currently experiencing an outage across our wireline and wireless networks and our technical teams are working hard to restore services as quickly as possible.

On behalf of all of us at Rogers, we sincerely apologize to our customers, and we will continue to keep you updated as we have more information to share, including when we expect service to be back up. Thank you for your patience as we work to resolve this issue.

Public Sector Network

- The Public Sector Network (PSN) is a [state-of-the-art fibre network](#) co-owned by the Region of Peel, Mississauga, Brampton, and Caledon. Peel Region's PSN Team manages all network records, locate services, subscriber build requests and financials for PSN as well as circuit designs for all new sites.
- [One of the largest municipally owned](#) fibre network in North America.
- [Over 800 kilometers of fibre](#) - the distance of almost 1,450 CN towers stacked on top of each other.
- The PSN was a [key enabler](#) for Regional business to continue with minimal interruption during the recent Rogers nationwide outage.
- Provides connectivity to:
 - Peel Regional programs such as [Peel Police Services, Paramedic Services, Long-Term Care](#).
 - 1053 facilities including public sector facilities such as [fire, libraries, parks, arenas, recreation centres](#) of the Cities of Mississauga, Brampton and Town of Caledon. Plus connectivity to 19 subscriber facilities (ex. [Hospitals, UofTM, Sheridan College](#)).

Achievements

Industry **Client Relationship Management case study** highlighting our achievements in service delivery through the provision of over 36 different digital applications using a single enterprise platform.

The Region of Peel won top awards at the ICMG Enterprise & Digital Architecture Ratings & Awards competition. It won for **“Best Digital Architecture in Local Government”** and in the **“Enterprise Architecture”** category.

Robotic Process Automation (RPA) Case Study highlights the successful introduction of technology that automates highly manual, repetitive, rule-based processes that handle huge volumes of data. Benefits include cost avoidance, greater accuracy, improve processing cycle times.

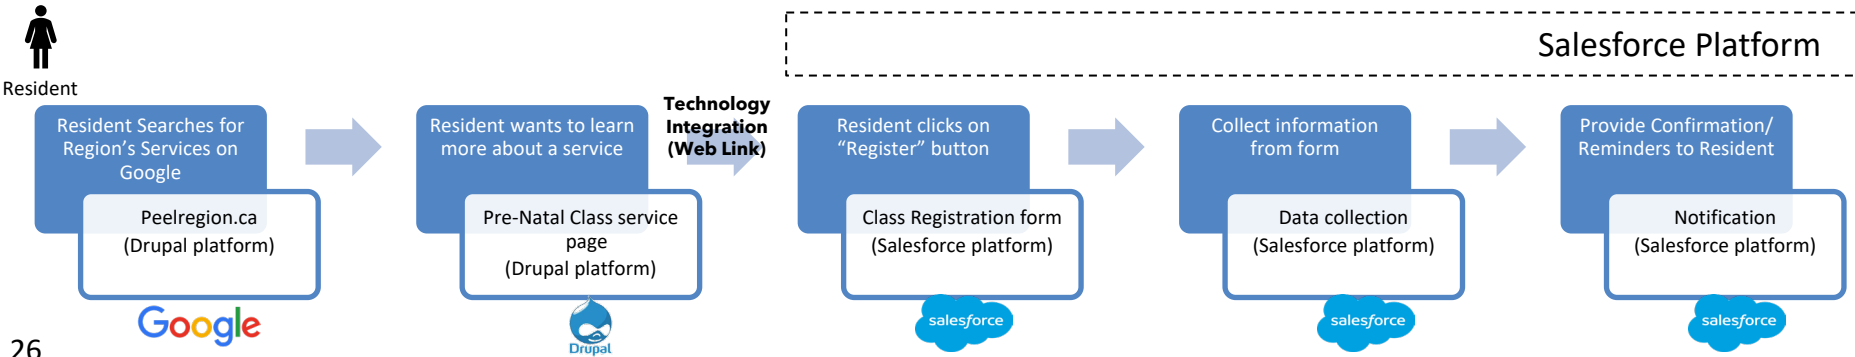

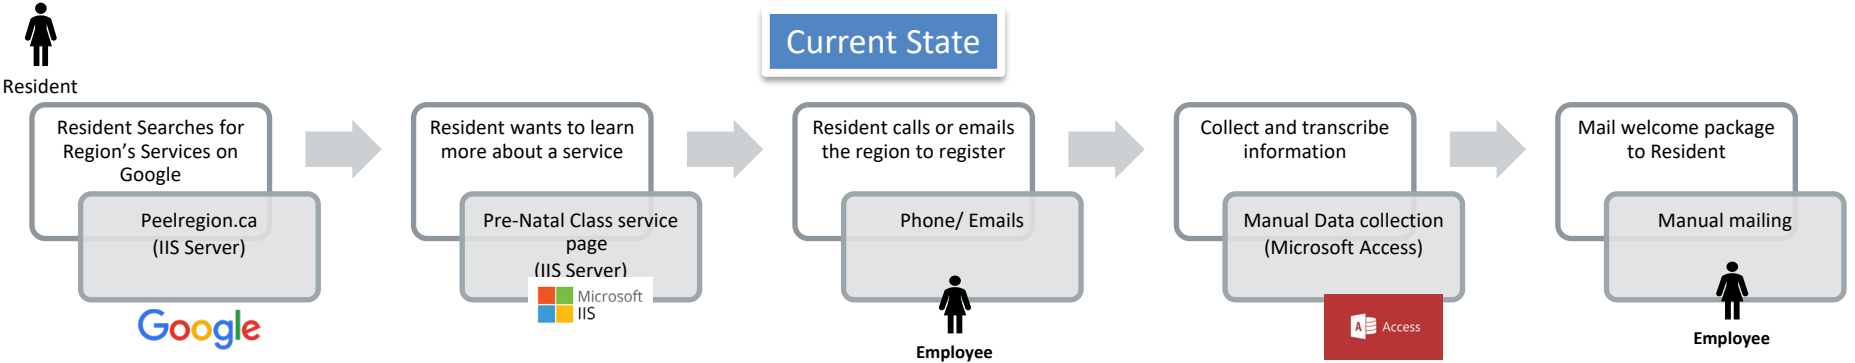

The **BeSpatial 2022 Gold Innovation Award** for the Census Information Hub. The CIH is an online dynamic tool that provides Statistics Canada with visually illustrated data relevant to our Peel population.

Business Plan Outlook

Planning for the future

- **Digital Government:** Accelerate the transition to a digital organization designed to take advantage of data and technology to create streamlined digital government services. **Digital Peel**
- **Invest in modern and secure solutions** while continuing to partner with different parts of the organization to modernize applications and retire legacy technical debt. **ERP and EAM**
- **Empowering AI Integration:** Navigating the Future of Digital Services in the Region of Peel through Platform-anchored AI Pilots. **Continuous Improvement**
- **Service Delivery: Navigating the Critical Role of IT During the Bill 112 Transition:** Safeguarding Services, Security, and Continuity. **Cybersecurity Enhancements**

End to End Digitization Register for Pre-Natal Class

Implementing Modern Solutions

Enterprise Resource Planning (ERP)

- To improve the effectiveness of our organization (Peel Region and Peel Police) and address the technology risk of our current portfolio of PeopleSoft applications that are at end-of-life.
- Covers Human Capital Management (HR, Payroll) Finance and Procurement functions.
- In 2022, over **12,000 T4's were produced for Peel and Peel Police**
- In 2022, the average number of **deposits per pay run was over 10,000 for Peel and Peel Police**
- Approx. **40,000** vendor payments in 2022
- For 2022, **\$1.3 Billion** in PO and Vendor Contracts

Enterprise Asset Management (EAM)

- To increase the Region of Peel's level of maturity in Asset Management through a modern and integrated EAM system (Maximo) to manage assets effectively across departments, to capture efficiencies, align functionality and enhance infrastructure effectiveness to support service delivery.
- **>\$36 Billion of Recorded Assets**
- **>500,000 annual work orders** that we process at Peel
- **>200,000 service requests**

Key Transition Considerations

- **Integrated Systems Environment:** Systems constructed on platforms are interlinked through foundational building blocks, resulting in intricate interdependencies due to inherent complexity.
- **Managing a Unified Network Across Municipal Boundaries:** Network stability and connectivity for both owners and subscribers in order to ensure uninterrupted access to services.
- **Data Privacy and Integrity:** Managing the risk of data loss and ensuring compliance with data privacy regulations.
- **Cyber Security Vulnerabilities:** IT systems and networks require ongoing management to reduce potentially exposing sensitive information to breaches and cyberattacks such as ransomware.
- **Loss of Expertise:** Staff changes or reductions will result in a loss of IT expertise, affecting the management and maintenance of critical systems.
- **Service Disruption:** Detailed advance planning is required to avoid disruptions in essential services that rely on IT infrastructure; impacting residents, partners, agencies and local operations.

Managing Long-term Debt Requirements

Strategic, Planned Approach

- Multi-year forecasting allows for planning and balancing of operational and financial considerations
- Debt levels expected to increase, supporting growth and non-growth, related initiatives
 - New capital pressures on non-growth capital program
- Reduction in financial flexibility
 - Higher interest rate environment = higher debt service costs on new debt
 - Annual Repayment Limit expected to increase but remain below provincial limit
- Current Regional net debt outstanding ~\$1.3 billion
