

NOTICE OF PUBLIC INFORMATION CENTRE NO. 1 Port Credit East Wastewater Servicing Optimization Strategy Schedule C Class Environmental Assessment

Background:

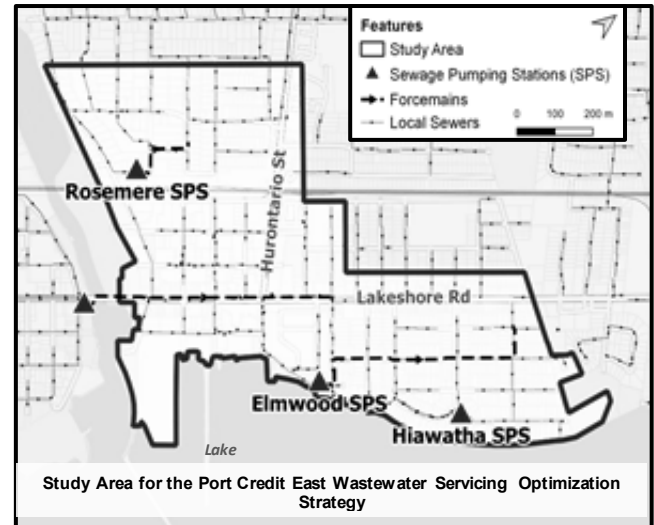

The existing sanitary pumping stations (Elmwood, Hiawatha, and Rosemere), and some of the sanitary sewer mains in the general Port Credit East area are experiencing operational challenges.

The Region of Peel has initiated this Municipal Class Environmental Assessment (EA) to develop an integrated and optimized servicing strategy to meet the needs of the existing community and provide for future growth.

Process:

This study follows a Schedule C Class EA process including:

- Public and agency stakeholder engagement
- Finding ways to improve and optimize the wastewater system
- Investigating alternative long-term servicing strategies, construction methodologies and design concepts and their potential impacts and mitigation needs
- Confirming the preferred solution including alignments, siting, design, and construction timing

Your Input is Important:

Three Public Information Centres (PICs) will be held to present the findings of the Class EA and to provide an opportunity to give feedback to the project team.

PIC No. 1 (Virtual):

The first PIC will be held virtually and will outline the background and objectives of the study, present the wastewater servicing alternatives being considered, and the evaluation approach that will be used to select a preferred solution. All content and instructions on how to submit questions and feedback will be posted on the project website at:

<https://www.peelregion.ca/public-works/environmental-assessments/mississauga/port-credit-east-wastewater.asp>.

Project information, including the wastewater servicing alternatives being considered, will be posted on the project website on **August 25, 2021**. This will be followed by a two-week question submission period closing **September 8, 2021**.

Contact:

If you wish to submit comments or would like to be added to the project mailing list for future project notifications, please contact the Project Manager listed below.

Italia Ponce, P.Eng., Project Manager
