

Four key steps for our recovery

COVID-19 continues to spread in Peel. Without a vaccine or treatment, we need to be vigilant to help control this highly contagious and harmful virus. Committing to follow the **Core Four** is the best way to protect our community and the fastest way to restore our thriving communities.

COVID-19 Core Four

Stay apart

Maintain 2-metres distance from everyone outside your **safe social circle**.

Lather up

Wash your hands with soap and water; or use hand sanitizer.

Mask up

Wear a non-medical mask where maintaining physical distancing is difficult and **where masks are mandatory**. Protect the supply of medical grade masks for health care workers.

Get tested

Get tested if you think you have COVID-19 or may have been exposed to it. Stay home, self-isolate and prevent potential spread.

These measures are temporary until we gain control over COVID-19 in Peel. Following these steps will save lives, protect our economy and speed up our recovery.
