

# Cleaning and Sanitizing

## Pots, Pans and Cooking / Preparation Utensils in a Two-Compartment Sink

**Sanitize for at least 45 seconds**

Mix clean water no colder than 24°C (75°F) with chlorine to make a mixture no weaker than 100 parts per million (ppm)  
Add 2ml of 5.25% liquid chlorine to every litre of water in the second sink to make a solution of 100 ppm

OR

Mix clean water no colder than 24°C (75°F) with quaternary ammonium to make a mixture no weaker than 200 ppm

OR

Mix clean water no colder than 24°C (75°F) with iodine to make a mixture no weaker than 25 ppm

OR

Use clean hot water at least 77°C (170°F)
