Project 17-1168S

Project Update

WATERMAIN INSTALLATION ON GOREWAY DRIVE AUCTION LANE TO INTERMODAL DRIVE CITY OF BRAMPTON

What are we doing?

- We comprehensively tested the new watermain to ensure it will provide safe and reliable drinking water for its full designed lifespan.
- Watermain testing and leak investigations took longer than originally planned, but recent results indicate we will soon be able to place the watermain into service.
- We will connect the new watermain to the existing water system soon. These connections will involve two-day excavations at both project ends and to adjacent side streets.

When will the road reopen?

- Two lanes of traffic in either direction will be maintained on Goreway Drive between Auction Lane and Intermodal Drive during this work.
- Three lanes of traffic in either direction will resume following final asphalt restoration, which is expected to occur before November 30, 2018.
- We may need to reduce traffic to a single lane in either direction for short periods of time to complete final watermain connections and asphalt restoration.
- Please obey all traffic signs, Paid Duty Police Officers and flagpersons when present.

Who can you call?

| Region of Peel | | |
