PROJECT UPDATE

SANITARY SEWER AND WATERMAIN CONSTRUCTION ON VARIOUS STREETS CITY OF BRAMPTON

PROJECT UPDATE

The Region of Peel is committed to keeping you informed and ensuring that the works are carried out with minimum disruption to your homes and businesses.

Sanitary sewer and watermain construction have been completed on **Gretna Drive, Horwood Drive, Cambridge Crescent and Parkway Avenue**. Reinstatement of roadways, sections of curbs, sidewalk bays, driveway aprons and majority of sod restoration impacted by the construction is complete. Due to unseasonably cold temperatures we were not able to restore all sod areas this year.

SCHEDULE

It is very common for the work area to settle a bit following construction. Any settlement deficiencies will be rectified by the Contractor. If you notice any post construction settlement, please let us know.

We expect to start work on all remaining sod restoration and any deficiencies on or about April 15, 2020 weather permitting.

We apologize for the inconvenience and appreciate your ongoing patience.

Thank you,

Joanna Pietkiewicz, Project Manager
