Project 13-1347 H1

PROJECT UPDATE

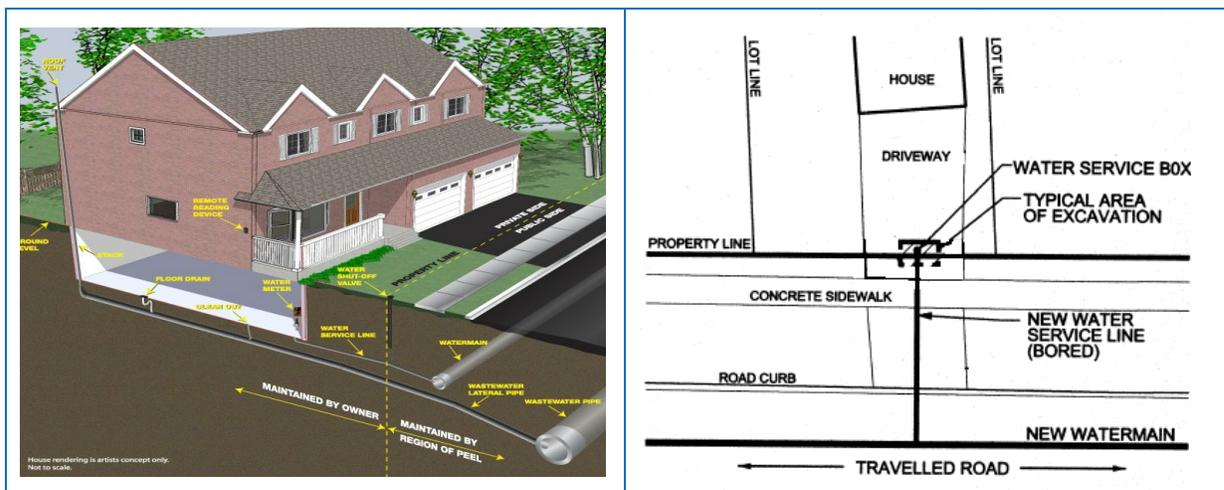

WATERMAIN REPLACEMENT AND IMPROVEMENT

SOUTH SHERIDAN WAY FROM TRIDOM COURT TO INDIAN GROVE, INDIAN GROVE FROM SOUTH SHERIDAN WAY TO INDIAN ROAD, AND INDIAN ROAD AT INDIAN GROVE

CITY OF MISSISSAUGA

Update

- The first half of the new local supply watermain on Indian Grove has now been installed and commissioned. Properties on the south end of Indian Grove, from 1320 to 1451 Indian Grove, will now have their individual water lines transferred from the old watermain to the new watermain.
- A new water service line will be brought up to the property line where a new water service box will also be installed. Where possible, your water line will be brought up to the property line using trenchless methods. However, **the area around the water service box will be excavated.**

A larger, interactive version of this picture can be found at peelregion.ca/water/your-home/

When?

- We expect to start work on Tuesday, May 25, 2021 starting at Indian Road and working north up Indian Grove.
- We will start restoring the road when all water system replacements and transfers are complete, and as weather permits.
- The project should be completed by the end of 2021, with some restorations in Spring 2022. All work is under warranty for two years from the completion date.

Working Hours

- Our contractor's normal working hours are from 7 a.m. to 7 p.m. These hours are consistent with the local municipality's bylaws. We understand this may cause some inconvenience, but a shorter working day would mean the project would take longer to complete.

Who can you call?

Region of Peel		
Contact Person	Responsibilities	Telephone Number
Nicole Sartor	Project Manager	905-791-7800, ext. 7832
Avalon Myers	Project Ambassador	905-791-7800, ext. 5053
Brandon Vandermeer	Inspector	647-824-9821
Contractor		
Contractor will do the work, under contract to the Region of Peel		
Contact Person	Responsibilities	Telephone Number
Bob Clarke	Project Manager	416-745-0707

Interrupting Your Water Supply

- It is our goal to let you know 48 hours (2 days) in advance if we plan to shut off your water for an **extended period** (several hours). Occasionally, we may have to reduce this notice to 24 hours.
- On the day we connect your water service to the new watermain, the contractor will let you know that your water will be shut off for a **brief period**. This will ensure proper notification for short duration works.
- If we must shut off your water because of an emergency, we will do everything we can to fix the problem as quickly as possible.

Project Construction Impacts

- Water service installations may impact your driveway and landscaping, depending on the location of your water service valve. We will repair the driveway in the disturbed area.
- If you have a stamped concrete driveway, we recommend contacting the original driveway contractor to restore the driveway at the end of construction, to be reimbursed by the Region. Unfortunately, the Region **cannot** completely replace your driveway.
- We will do our best to reduce impacts to landscape features and to restore the area to match existing conditions at the end of the construction. However, you may wish to transplant or relocate any plantings or landscape items around your service box prior to the Contractor's work.
- If tree branches on private property interfere with construction, they will be pruned back to the nearest suitable trunk, crotch or branch. The Contractor will ask you for permission before cutting any branches on private property. If you do not allow the Contractor onto your property to trim the branches, the branches will be cut vertically at the property line.

Project Updates

- The Region of Peel will always let you know if there are any major changes to the plans.
- We will try to disturb you as little as possible.
- Please call the Ambassador, Project Manager or Inspector if you have any concerns or special needs.

Thank you!

Nicole Sartor
Project Manager

Cc: Councillor K. Ras

Construction statement regarding COVID-19

Construction is an essential service. We're keeping employees, contractors and the community safe by complying with provincial regulations, physical distancing, using PPE and adjusting work schedules & shifts.
