Traffic and Parking Control

- We may need to reduce traffic to a single lane during construction.
- If we have to re-route traffic, we will place signs giving directions.

Driveway Access

- Due to construction activities, we may need to block your driveway for a short time. We will contact you before we do this to arrange for the best time and for alternate access, if needed.
- We will make sure businesses have access at all times.
- Please call the Project Manager if you have special needs related to access or business hours.

Replacing and Taking Care of Your Sod

- The contractor will take care of any sod we replace for 30 days.
- You can help the sod to stay healthy by watering it for one hour in the early morning, two or three times a week. This is especially important in hot or dry weather.
- We will replace your sod as soon as we can, but there may be a short delay.

- It is very common for the work area to settle a bit following construction. If you notice any settlement, please let the project manager or inspector know and we will ensure the contractor fixes it.

Repairing the Road, Driveway Aprons, Curbs, and Sidewalks

- Our contractor will pave only the trench they dug and install temporary curbs because the City of Mississauga plans to pave Carlo Court later this summer.
- If you have any questions or concerns, please contact the Region of Peel Project Manager.

Project Updates

- The Region of Peel will always let you know if there are any major changes to the plans.
- We will try to disturb you as little as possible.
- Please call the project manager or inspector if you have any problems or special needs.

Thank you!

Frank Pugliese
Project Manager
