Hi Maxime

We are planning on conducting the stage 2 archaeological assessments on July 12. I believe you were interested in monitoring opportunity during the field work?

Please let me know if you are still interested in being on site during the work.

Thanks

Hello Sargon,

Thanks for providing us the information.

As the Huron-Wendat Nation has some archaeological sites in the Region we insist to stay informed about the results of the Stage 2 assessments as well as any monitoring opportunity.

Best regards,

Maxime Picard

Hi Maxime

Attached is our stage 1 archaeological assessment that has been completed. The report recommends stage 2 after a design option has been picked.

Thanks

Many thanks for those information Sargon.

As the Huron-Wendat Nation has some archaeological sites in the region we insist to stay informed of any upcoming archaeological assessments as well as any monitoring opportunity.

When possible we would like to have copy of the archaeological studies that have been achieved to date.

Best regards,

Maxime

Hi Maxime

My consultant has gotten back to me and to date they have initiated the background research, taken out a PIF (Project Information Form) with the Ministry of Tourism, Culture and Sport (MTCS) and obtained archaeological information from the MTCS. They are not certain about whether Stage 2 will be required at this point.

Golder, who is my consultants sub is conducting a property inspection tomorrow. It will entail photo documentation of areas that have archaeological potential, as well as areas that do not have archaeological potential in that they have been previously disturbed, are permanently wet areas or areas of sloping.

Thank you

Hi Sargon,

Thanks for providing us with that information, it is effectively helpful.
Are there any archaeological assessments that have been done yet regarding this project?

Maxime

Hi Maxime

Unfortunately we do not have any shapefiles for the study area but what we do have is a survey. Attached are the 2d and 3d survey files.

I have also attached a pdf of the study area that has the survey with aerial images.

Is this information helpful?

Thank you

Good morning Sargon,

First of all thanks for your letter on the Albion Vaughan Road and King Street Project.
Before providing you any comments the HWN would like to have access to the shapefiles of the study zone.

Could you please provide us this information ?

Best regards,

Maxime Picard
