

Environmental Assessment Study

Notice of Online Public Engagement #1 Etobicoke Creek Trunk Sewer Improvements and Upgrades

Background

The Region of Peel is undertaking a Municipal Class Environmental Assessment (EA) Study to identify, develop and implement a solution to address future capacity needs and existing sanitary sewer issues in the Etobicoke Creek Trunk Sanitary Sewer, from Kennedy Road in the City of Brampton to Derry Road in the City of Mississauga. The study area for this Class EA is shown in the map below.

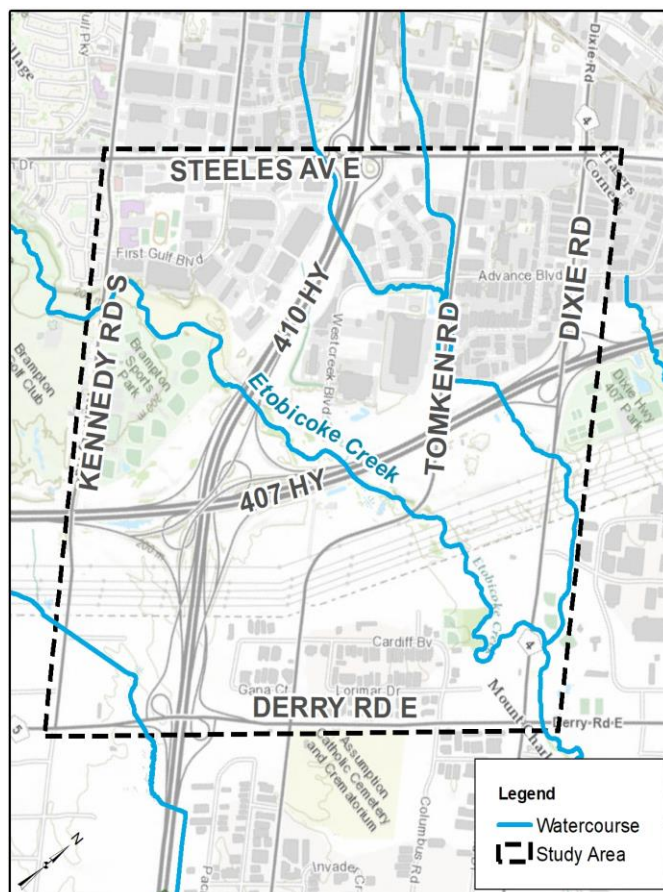

The existing Etobicoke Creek Trunk Sewers service a large area extending north of Mayfield Road, which is projected to grow by approximately 40 percent. Therefore, this study is to ensure reliable sanitary service is provided to existing and future growth in this area.

Your Input is Important

Due to current COVID-19 guidelines, *Online Public Engagement* has been arranged to provide members of the public an overview of the Class EA process and background information and an opportunity to provide input on alternative solutions.

Display boards will be made available to the public on peelregion.ca/public-works/environmental-assessments, beginning **Nov. 26, 2020**. Paper copies of the display boards will be made available upon request.

In early 2021, additional information will be provided on implementation of the preferred solution and the results of the Study will then be published in an Environmental Study Report, placed on public record for review.

Please submit any questions or comments, to the Project Manager listed below, by **December 11, 2020**.

To be added to the mailing list or to receive further information about the project, please contact:

Italia Ponce, P.Eng.

Project Manager
10 Peel Centre Drive, 4th Floor, Suite A
Brampton, ON, L6T 4B9

Italia.ponce@peelregion.ca

For more information on the project visit the Region's website at peelregion.ca/public-works/environmental-assessments/#current and select Brampton, beginning **Nov. 26, 2020**.

The Region of Peel is committed to ensure that all Regional services, programs and facilities are inclusive and accessible for persons with disabilities. Please contact the Project Manager if you need any disability accommodations to provide comments or feedback for this study.

This notice was first issued on Nov. 26, 2020.

With the exception of personal information, all comments will become part of the public record of the study. The study is being conducted according to the requirements of the Municipal Class Environmental Assessment, which is a planning process approved under Ontario's *Environmental Assessment Act*.
