

Environmental Assessment Study

NOTICE OF COMPLETION FOR BOVAIRD DRIVE (R.R. 107) FROM LAKE LOUISE DRIVE/WORTHINGTON AVENUE TO 1.45 KM WEST OF HERITAGE ROAD, CITY OF BRAMPTON

The Region of Peel has completed the Schedule C Municipal Class Environmental Assessment study for the improvements to Bovaird Drive from Lake Louise Drive/Worthington Avenue to 1.45 km west of Heritage Road in the City of Brampton (study area is shown on the map).

The Process

The project team received input from interested stakeholders, the public and agencies, at two Public Information Centres. The team evaluated various road improvement alternatives and assessed the potential environmental effects of the proposed improvements and developed reasonable means to mitigate any adverse impacts.

Key Elements of the Recommended Design

The study recommends:

- the widening of Bovaird Drive to 3 lanes in each direction, with turning lanes at intersections, east of the proposed Halton-Peel Freeway
- the widening of Bovaird Drive to 2 lanes in each direction, with turning lanes at intersections, west of the proposed Halton-Peel Freeway
- an urban cross section which includes curb and gutter, sidewalk, multi-use path, street lighting and transit facilities
- streetscaping along Bovaird Drive including planting of trees and shrubs, where appropriate

Environmental Study Report (ESR)

An ESR has been prepared to document the planning and decision making process. The results of the study will be available for review for 45 calendar days starting April 4, 2013 and ending May 20, 2013. It is available for review at the following locations:
