

Environmental Assessment Study

NOTICE OF STUDY COMMENCEMENT SUPPLY CAPACITY INCREASE FOR PALGRAVE WELL # 4

Background

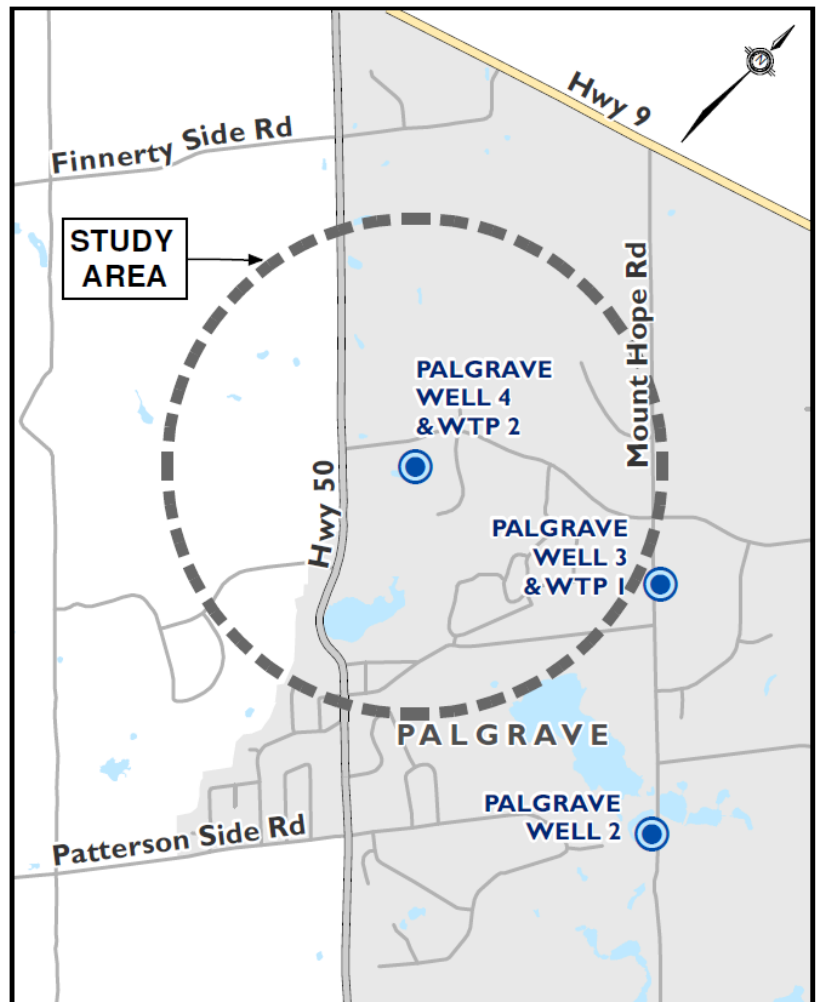

The Region of Peel owns and operates the Caledon East/Palgrave Drinking Water System, a groundwater-based system, supplying drinking water to the communities of Caledon East, Palgrave, Palgrave Estates, Mono Road, Albion, Centreville, and Cedar Mills, in the Town of Caledon. The system is currently supplied by six (6) municipal groundwater sources located in Palgrave and Caledon East.

Class EA Study Process

A Class Environmental Assessment (Class EA) study is being initiated to plan for the necessary upgrades/modifications resulting from a proposed increase in water taking capacity of the existing municipal production well, Palgrave Well #4, located at 9 Buckstown Trail. An increase of water taking of Palgrave Well #4 will provide additional supply capacity to the existing Caledon East/Palgrave Drinking Water System to meet the long-term water needs of the serviced area.

The Class EA study is being conducted according to the requirements of a Schedule 'B' project of the Municipal Class Environmental Assessment document (October 2000, as amended in 2007, 2011 & 2015).

The purpose of the study is to evaluate and identify the preferred infrastructure improvements to the water supply system in the Caledon East/Palgrave Drinking Water System, specifically related to the water taking capacity increase at the existing Palgrave Well #4.

We will consult the public, review agencies, Indigenous Communities and First Nations Groups throughout the Class EA study. A Public Information Centre (PIC) will be held in association with this study. Notices for the PIC will be published in local newspapers, on the Region's website at peelregion.ca/public-works/environmental-assessments/#current and distribute to all individuals who express an interest in this project.

How to stay involved

We are interested in hearing from you about this project. Please contact either of the project team members below if you have questions or comments, wish to obtain more information on the project, or would like to be included on the Project Contact List.
