Hello,

The Region of Peel, in collaboration with their Consultant (Arcadis), is commencing a Schedule B Environmental Assessment under the Municipal Class Environmental Assessment (EA) process.

The Region has identified the need to increase wastewater (sanitary sewer) servicing capacity to enable proposed and future developments near the intersection of Hurontario Street and Kirwin Avenue. Therefore, the primary objective of this assessment is to evaluate potential alternatives for sanitary sewer development within the study area.

For further details and the study area, kindly refer to the [Notice of Study Commencement](#) available on the Region of Peel's Website.

Should you require additional information or have any inquiries related to the project, please feel free to contact us.

Thank you for your time,

**Hedieh Hashtroudi** P.ENG., M.A.SC., M.ENG.  
Project Lead  
M: 647 879 7005

## NOTICE OF STUDY COMMENCEMENT - Schedule B Class Environmental Assessment Diversion Sanitary Sewer on Kirwin Avenue

### Background:

Peel Region has identified the need to increase wastewater (sanitary sewer) servicing capacity to enable proposed and future developments near the intersection of Hurontario Street and Kirwin Avenue.

This study will evaluate all potential alternatives for sanitary sewer development within the highlighted study area.

As a result, a Schedule 'B' Class Environmental Assessment (EA) has begun to identify a solution for this infrastructure need. The map shows the area that may be affected by the proposed construction.

### Process:

This study will follow the 2023 process for a Schedule "B" EA project, which includes:

- Public and stakeholder consultations;
- An evaluation of alternative solutions;
- An assessment of proposed alternatives; and,
- Identification of ways to lessen the adverse impacts to the community.

### Your input is important:

As part of the Study, online public engagement will allow interested members of the public to review and comment on the alternatives, including the preferred alternative, the evaluation process, and next steps in the Study process. This information will be available to the public at [peelregion.ca/public-works/environmental-assessments](https://peelregion.ca/public-works/environmental-assessments). Any input received will be incorporated into the Project File Report, which will be available for public review when the study is completed.

### Contact the team:

The study is currently in the early stages and a date for online public engagement will be communicated in a future notice. Receive email updates by signing up to receive e-notices for project 23-2129 at [peelregion.ca/construction/signup](https://peelregion.ca/construction/signup). For further information, please contact:

**Sarah Lobo, P.Eng.,**

**Project Manager, Public Works**

Tel: 905-791-7800, ext. 8266 | Email: [sarah.lobo@peelregion.ca](mailto:sarah.lobo@peelregion.ca)

The Region of Peel is committed to ensuring that all Regional services, programs, and facilities are inclusive and accessible. Please contact the Project Manager if you need any accommodations to provide comments and/or feedback for this study.

**This notice was first issued on August 18, 2023**

**Subject:** Diversion Sanitary Sewer on Kirwin Avenue | Notice of Online Public Engagement - Schedule B Class Environmental Assessment  
**Attachments:** Notice of OPE\_Diversion Sanitary Sewer Kirwin Ave.pdf

Hello,

The Region of Peel, in collaboration with their Consultant (Arcadis), is undertaking a Schedule B under the Municipal Class Environmental Assessment (EA) process.

Peel Region has identified the need to enhance and increase wastewater (sanitary sewer) servicing capacity to facilitate proposed and future developments in the vicinity of the Hurontario St. and Kirwin Ave. intersection.

An evaluation of alternative solutions has been completed and the recommended alternative is “proposing a sanitary diversion sewer starting from Hurontario St and travelling northeast along Kirwin Ave. The proposed sewer will connect to the existing Cooksville Creek Trunk Sewer on the south side of the creek bank.”

As part of the Study, online public engagement has been arranged to allow interested members of the public an opportunity to review and comment on the alternatives, including the preferred alternative, the evaluation process, and next steps in the Study process. Display boards are available to the public on <https://www.peelregion.ca/public-works/environmental-assessments/mississauga/kirwin.asp>. The Notice indicates that comments are due by **May 22, 2024**.

Should you require additional information or have any inquiries related to the project, please feel free to contact us.

Thank you for your time,

## Environmental Assessment Study

### NOTICE OF ONLINE PUBLIC ENGAGEMENT - SCHEDULE B Diversion Sanitary Sewer on Kirwin Avenue

#### The Study

Peel Region has identified the need to enhance and increase wastewater (sanitary sewer) servicing capacity to facilitate proposed and future developments in the vicinity of the Hurontario St. and Kirwin Ave. intersection. There is an opportunity to accomplish this by installing a new sanitary sewer to accommodate flows from proposed developments near Hurontario St. and Kirwin Ave.

This study will evaluate potential alternatives for sanitary sewer development within the highlighted study area.

As a result, a Schedule 'B' Class Environmental Assessment (EA) has begun to identify a solution for this infrastructure need. The map shows the area that may be affected by the proposed construction.

#### The Study Process includes:

- Public and stakeholder consultations.
- An evaluation of alternative solutions.
- An assessment of proposed alternatives; and,
- Identification of methods to lessen the adverse impacts to the community.

#### Online Public Engagement

As part of the Study, online public engagement has been arranged to allow interested members of the public an opportunity to review and comment on the alternatives, including the preferred alternative, the evaluation process, and next steps in the Study process. Display boards will be made available to the public on [peelregion.ca/public-works/environmental-assessments](https://peelregion.ca/public-works/environmental-assessments) starting **May 1, 2024**.

Please submit any comments or concerns by **May 22, 2024**. Any input received by that date will be incorporated into the Project File Report, which will be available for public review when the study is completed.

#### Contact

For further information and to provide your comments, please contact:
