

No encampment zones on municipal lands

Prominent municipal spaces regularly used for public gatherings and where events with a permit are scheduled

On any community garden and in any garden shed or greenhouse

Public rights-of-way to sidewalks, streets, active, multi-use trails, medians, regional or municipal facilities

On or within any designated fire route, or the entrance to or exit from a designated fire route, or located so as to block any fire hydrant

Sites located within floodplains

On or within areas prone to erosion, slope instability, not serviced in winter, or other environmental hazards, due to risks to health and safety

Obstructing critical infrastructure sites

Schoolyards, daycare centres, playgrounds, and sports fields on schoolboard property

Active construction sites

Conservation areas

Playgrounds, sports fields, and any fenced-in, off-leash dog area

Transit stations and networks such as Metrolinx GO stations and other municipal transit agencies

Non-municipal lands

Note: No temporary shelter or tent will be placed against, under or be attached or tied to any building or permanent structure. All shelters and tents must be freestanding. Areas that are not serviced during the winter are prohibited sites for encampments.

Developed by the Peel Encampments Working Group
