

# Turn the Key

Don't forget to turn the lock on your organics cart all the way to the right to lock it, and all the way to the left to unlock it. **Keep your organics cart lock in the vertical position.**

This will help to prevent the lock from freezing.

# Use the Handy Sorter Tool

Not sure which waste  
cart to use?

Go to [peelregion.ca/waste](https://peelregion.ca/waste) and try the **"Where Does It Go"** sorter tool. Type the item you're wondering about into the search field and we'll tell you which cart to put it in. It's as easy as that!
